About PET

Phoslock Environmental Technologies Limited (ASX: PET) specialises in water treatment products to remediate nutrient polluted fresh waterbodies including, lakes, rivers, canals, municipal and private ponds, recreational and drinking water reservoirs.

Headquartered in Melbourne, PET also has offices in Shanghai and the UK, sales resources in China, ANZ, Europe and the US. PET also has registered entities in Canada, USA and Belgium, and manufacturing operations based in Changxing, China. PET is represented by licensees, distributors and agents in numerous other countries including HydroScience in Brazil.

Phoslock® is a proprietary and unique water treatment product that permanently binds excess phosphorus in the water column and sediments.

Phosflow is a proprietary and unique water remediation product that removes excess phosphorus in flowing water applications.

Phoslock is certified for use in drinking water in North America, Europe, Brazil, Australia, and China. Along with Phoslock, PET also supplies zeolites and specialised solutions that address water pollution issues.
